Have need for custom sheets? ARTTEC TRANSFER LETTERING can always meet those needs! Produced with the same fine quality as our standard line and guaranteed for a 3 year shelf-life when stored under normal conditions. ARTTEC TRANSFER LETTERING custom sheets will save you time and money for such design items as corporate logos, special type faces, specialized symbols, word groupings and non-standard letter frequencies. And because you design the layout of the custom sheet to meet your specifications, there is no waste.

A minimum quantity of 50 sheets is all that is required to have your own custom sheet produced. All custom sheets will be delivered promptly after receipt of art.

Here's all you do to prepare your custom sheets:

- Supply camera ready art arranged to fill a live copy area of 9 x 13½"
- Art may be prepared same size or proportionately larger
- Take extra care to provide the best art possible
- Note that multiple color custom sheets necessitating register printing will require register separation overlays
- Specify color and quantity

SPLIT COLOR CUSTOM SHEETS: Additional colors of the same custom plate can be run in 25 sheet lots at no additional charge. Very fine patterns or logos requiring a clear decal film for easy transferring is priced the same as an additional color. No extra charge for standard colors:
Opaque colors are: black, white, red, blue, green and yellow.
Transparent colors are: red, blue and green.

Commercial color mixing: $15.00 per color.
Exact color match, per quote.

If you cannot supply finished art, ARTTEC offers complete studio services. For prices and more detailed information, please write or call for quotations.
